# REPULSOR A/T PLATEAU

## Premium All-Terrain Performance

### BUILT FOR THE BOLD

The **Repulsor A/T Plateau** is the first-ever all-terrain tire in the Rolling Big Power lineup. With its aggressive, head-turning sidewall design, this tire doesn't just look tough — it is tough. Delivering performance that goes beyond expectations, you're not just getting a tire — you're getting value, reliability, and confidence with every mile.

The **Repulsor A/T Plateau** is built to take you anywhere with confidence — from muddy trails and rocky terrain to snowy roads and highways. Its interlaced tread blocks deliver powerful grip on tough surfaces, while sawtooth grooves and dense sipes ensure reliable winter traction, earning the 3PMSF certification. A computer-optimized tread design provides balanced handling and excellent water evacuation, while the advanced compound and contact shape promote even wear for longer life. Reinforced sidewalls not only enhance off-road control but also protect against cuts and damage, giving you the durability and peace of mind to go wherever the journey leads.

Backed by our Rolling Big Promise, a **50,000-mile** treadwear warranty and road hazard coverage, allows you to drive with peace of mind knowing you're protected.

With Rolling Big Power, you don't just drive — ***You go anywhere you want to.***
